

May 24, 2017

Dear Sir or Madam:

Stations KSJB-AM/KSJZ-FM request a waiver from the requirement to create an online Public file by March 1, 2018.

My request for a waiver is due to resource limitations.

Our company owns just these 2 stations, in Jamestown North Dakota-population 16,000. We have no further corporate infrastructure or support staff.

As the VP/GM, I run the station, serve as sales manager, sell myself; even voice commercials. I am also responsible for everything related to day-to-day operations.

We have no HR director, Business Manager, IT specialist etc. so uploading ongoing content to the online public file would fall on me. This would take enormous amounts of time that would require me to divert attention from all my other essential duties.

I should add, as a 53-year old individual, I am far from technically savvy or proficient. Figuring out how to, and then actually scanning the copious amounts of documents involved would certainly take me far longer to complete than would be the case with a trained or experienced individual.

Additionally, I underwent open heart surgery on November 13, 2012. Frankly, the dread I have experienced at the prospect of having to create this online public file has been tangible and has created significant anxiety and stress detrimental to my health.

Finally, I realize the online file is part of a process in which the requirement to maintain an office in the city of license may be eliminated. However, as a small broadcaster, I can state with certainty that we will always maintain an office in our city of license with an easily accessible physical Public File.

Thank you for entertaining my request for a waiver. Feel free to contact me if you would like additional information.

Respectfully,

A handwritten signature in blue ink, appearing to read "Patrick R. Pfeiffer".

Patrick R. Pfeiffer, VP/GM
